

**DEPARTMENT OF THE AIR FORCE**  
DETACHMENT 4, HEADQUARTERS AIR COMBAT COMMAND  
BARKSDALE AIR FORCE BASE, LOUISIANA

MEMORANDUM FOR AETC/A6XP

FROM: AFNETOPS/CC  
245 Davis Avenue East  
Barksdale AFB LA 71110-2279

SUBJECT: Authorization to Operate (ATO) and Authorization to Connect (ATC) for Consolidated Telephone Operators - AETC (CTO) Version 1.0 (Authorization Termination Date [ATD]: 30 June 12)

1. As the system Designated Accrediting Authority (DAA), I hereby grant an ATO for CTO version 1.0. This accreditation is my formal declaration that appropriate system security measures and/or countermeasures have been properly implemented and that a satisfactory level of security is present.
2. Further, as AFNetOps/CC, I hereby grant CTO version 1.0 an ATC to connect to the Air Force Global Information Grid (AF-GIG) interfacing the NIPRNet.
3. My decision to grant this ATO and ATC is based on the certification determination of the AF Certifying Authority and supported by the analysis of the Information Technology Lean Database, DIACAP artifacts and supporting documentation.
4. This accreditation and connection authorization is valid until the ATD specified above. Reaccreditation will be required sooner if there is any change affecting the security posture, architecture or configuration of the system. Operations outside the boundaries of the references specified above will invalidate this approval and are cause to revoke or rescind this authorization.
5. It is the responsibility of the senior official in charge of the system at each implementation location to ensure any change in configuration, mode of operation, or other modification is analyzed to determine system security impact(s); is appropriately addressed through the CTO version 1.0 configuration management process; and is properly acted upon to maintain a level of security consistent with the requirements established in the Enterprise Information Technology Data Repository (EITDR) and DIACAP Comprehensive Package. Further, the Information Assurance Manager must ensure annual reviews are conducted IAW FISMA/DIACAP and the results are entered in the EITDR. The certifying agency will update the EITDR accordingly, and ensure a copy of this accreditation letter remains on file with any related support documentation.

6. This decision is for this version only as implemented in the aforesaid documentation. My Information Assurance validation OPR for CTO version 1.0 is the HQ AFCA Consultation and Assessments Branch, HQ AFCA/EVSS, 618-229-6849 (DSN 779-6849) or e-mail: [afca.evss@us.af.mil](mailto:afca.evss@us.af.mil).
